## **Quest Weapons**

Some weapons are so powerful that they may only be deployed by the best commanders. These weapons each have requirements that must be met in battle in order to be fired. Rest assured, when these weapons are unleashed your enemies will cower in fear.

## **Items**

The game features a load of items to assist you in battle. These items range from shields, to energy restoration, disables, and utility enhancers. These items provide a wide variety of tactical uses that can help you claim victory.

## **Environments**

## **Classes**

This game features multiple classes and two different types of vehicles. Take control of not only land vehicles, but airborne ones too! Each vehicle has different stats and abilities. ## **Match Customization**

Two teams simply aren't enough. You can play with up to 8 different teams, balanced in any way you see fit. The freedom in Megaton is entirely yours, customize each game's values to your needs, with options for gameplay adjustments such as wind and sudden death. Fight the battles that you want to fight, whether it's knocking enemies down into the core of the planet, building barriers and reforming the terrain, or by firing lethal attacks from afar, it's your battle, your way.
